Cinderella

By Charles Perrault
1697

French author Charles Perrault is often called the "father of the fairy tale" for his well-known tales such as "Little Red Riding Hood," "Puss in Boots," "Sleeping Beauty," and "Cinderella." Cinderella is a famous folk tale, a story that has been passed down for many generations, about a young woman trying to overcome the cruelty of some of her family. There are numerous different versions of the story, with historical roots in places as far apart as China and Italy. This version, by Perrault, is the first to include the famous pumpkin, fairy godmother, and glass slippers. As you read, take notes on how Cinderella and her stepisters treat each other throughout the story.

[1] Once there was a gentleman who married, for his second wife, the proudest and most haughty woman that was ever seen. She had, by a former husband, two daughters of her own, who were, indeed, exactly like her in all things. He had likewise, by another wife, a young daughter, but of unparalleled goodness and sweetness of temper, which she took from her mother, who was the best creature in the world.

No sooner were the ceremonies of the wedding over but the stepmother began to show herself in her true colors. She could not bear the good qualities of this pretty girl, and the less because they made her own daughters appear the more odious. She employed her in the meanest work of the house. She scoured the dishes, tables, etc., and cleaned madam's chamber, and those of misses, her daughters. She slept in a sorry garret, on a wretched straw bed, while her sisters slept in fine rooms, with floors all inside, on beds of the very newest fashion, and where they had looking glasses, so large that they could see themselves at their full length from head to foot.
